Education

Sardar Patel Institute of Technology Nov 2022 - Aug 2026
Bachelor of Technology in Computer Engineering (CGPA - 8.4)

DG Ruparel College of Science, Arts and Commerce Oct 2020 - Mar 2022
Maharashtra Higher Secondary School Certificate Examination (84.5 Percentage)

Experience

Digital Technology Intern Jan 2026 - Oct 2026
Baker Hughes *Onsite*

- Coordinated cross-functionally with engineering across **12+ Agile sprints**, defining acceptance criteria and tracking **100+ user stories** to milestone completion in rapid, iterative release cycles at an industrial equipment manufacturer
- Designed and executed **180+ test cases** covering **edge cases, failure modes, and boundary conditions**, doubling testing efficiency and achieving **zero defects during UAT**
- Built automation frameworks **(Playwright, Jest)** for scalable, repeatable validation, cutting manual effort and enabling faster, more reliable release cycles
- Synthesized findings from systematic edge-case analysis into concrete engineering fixes, strengthening API robustness and alignment with business rules

Software Development Intern Nov 2024 - Mar 2025
SP Jain Institute of Management and Research (SPJIMR) *Hybrid*

- Owned end-to-end feature definition for **NovaScholar**, an **AI-driven** learning platform, translating user needs into personalized QnA, live polls, and quizzes, and tracked **5+ engagement metrics** to measure adoption and product performance
- Partnered with faculty stakeholders to scope and ship **7+ features** across pre-, in-, and post-class workflows, tailoring the rollout to each audience so instructors could act on live usage signals and participation data
- Led a pilot deployment for **20+ students** from problem discovery through launch, running structured feedback sessions and synthesizing input into rapid iterations on scope and usability ahead of institutional-scale rollout

Projects

Revify | Link *Python, CrewAI, Gemini*

- Architected a **multi-agent** review-summarization pipeline using **CrewAI** and **Gemini 1.5 Flash**, coordinating specialized agents to generate structured, feature-wise summaries across **15+ product dimensions**
- Designed a **Thought-Action-Observation (TAO)** agent reasoning framework with strict **evidence grounding** to reduce hallucinations, turning unstructured reviews into interactive, decision-ready dashboards
- Implemented a **JSON-Pandas** data pipeline for feature extraction, prompt execution, and result aggregation, enabling fast iteration on agent prompts and output-quality evaluation
- Co-authored a research publication **(IEEE ICAD 2026)** formalizing the system's agentic architecture and evaluation approach

EmFlow | Link *React.js, Node.js, MongoDB, Figma*

- Developed a collaborative task management platform with **3-tier RBAC**, supporting **4 distinct workflows** for admins, managers, and employees, with real-time task and ticket tracking
- Designed **3+** interactive dashboard modules and integrated event scheduling with reactive updates, improving team coordination; implemented **JWT-based authentication** with protected routes

Skills

Product & Program Management: Roadmap Ownership, Product Requirements, User Research & Feedback Synthesis, Agile/Scrum, Stakeholder Communication, Data-Driven Decision Making, Cross-functional Collaboration
AI / Agentic Systems: LLMs, Multi-Agent Systems (CrewAI), Agent Reasoning (TAO), Prompt Engineering, Evidence Grounding & Hallucination Mitigation, Gemini API
Programming Languages: C++, Python, Java, HTML, CSS, SQL
Technologies / Tools: React.js, Node.js, Express.js, Flask, Streamlit, REST APIs, MongoDB, JEST, Playwright, Git/Github, Docker, Postman, DBeaver, Figma

Publications & Certifications

Research Publication (IEEE ICAD 2026): Co-authored *"Revify: An Agentic Opinion Mining System for Product Reviews"* | **Link**
Foundations of Project Management | *Google* | **View Certificate**
Agile Project Management | *Google* | **View Certificate**

Positions of Responsibility

Head of Creatives | *Oculus SPIT* Dec 2023 - May 2024

- Led a **5-member cross-functional team** to plan and deliver 10+ promotional assets against tight deadlines, increasing event visibility and engagement

Head of Marketing | *Forum For Aspiring Computer Engineers (F.A.C.E SPIT)* Dec 2023 - May 2024

- Built sponsorship pitches and delivered stakeholder presentations that secured funding for flagship events
